

Kunhee Ryu

Researcher · Human Artificial Intelligence Research Lab
Yonsei University · Seoul, Republic of Korea

rgh00826@yonsei.ac.kr

[Google Scholar ↗](#) [ORCID ↗](#) [GitHub ↗](#)

RESEARCH INTERESTS

Representation learning; sequential decision-making and planning; multi-agent systems; human–AI interaction.

EDUCATION

Yonsei University 2023–2025

M.S. in Innovation

Advisor: Professor Keeheon Lee

Thesis: Enhancing Document Retrieval-Augmented Generation through Knowledge Graph Integration for Biomedical Question Answering

Yonsei University 2019–2023

B.S. in Creative Technology Management

Underwood International College

RESEARCH EXPERIENCE

Human Artificial Intelligence Research Lab 2021–present

Yonsei University · Advisor: Professor Keeheon Lee

Researcher Sep. 2025–present

Graduate Researcher Sep. 2023–Aug. 2025

Undergraduate Research Assistant Mar. 2021–Aug. 2023

Research on LLM agents, sequential decision-making, multi-agent coordination, human–AI interaction, information retrieval, and reliable evaluation.

PUBLICATIONS

Evaluating LLM Agents Beyond Local Edit Validity

Kunhee Ryu, Chi-Guhn Lee, and Keeheon Lee

Findings of EMNLP 2026 · 2026 · Accepted

Out-of-Distribution Checkpoint Selection Has a Resolution Problem: Auditing Sparse Exact Match with Token Likelihood

Kunhee Ryu and Keeheon Lee

Findings of EMNLP 2026 · 2026 · Accepted

AutoMETA: A Multi-Agent LLM System for Autonomous Meta-Analysis

Keeheon Lee and Kunhee Ryu

AAMAS 2026 · Main track · 2026

WORKSHOP PAPERS

Manners Maketh MAN: Moral-Profile Diversity and Cooperative Dynamics in LLM-Based Multi-Agent Simulation

Keeheon Lee, Kunhee Ryu, and Hogyun Yoo

AAMAS 2026 · ASI Workshop · 2026 · Non-archival poster paper

Manners Maketh MAN: Multi-Agent Norm Dynamics under Cultural Moral Values

Keeheon Lee, Kunhee Ryu, Minje Kim, and Hogyun Yoo

CHI 2026 · PoliSim Workshop · 2026

SELECTED FUNDING

Master's Student Research Encouragement Grant

2024–2025

National Research Foundation of Korea

Grant recipient and proposal author

TEACHING

Techno–Art Capstone Project Teaching Assistant · Yonsei University	Spring 2025
Data Science for Business Teaching Assistant · Yonsei University	Spring 2025
Social Network Analysis Teaching Assistant · Yonsei University	Fall 2024
Python for Data Analysis & Text Analysis Teaching Assistant · Yonsei CDSS	Jan. 2023

SERVICE & LEADERSHIP

Manager, HAIR Lab	Sep. 2025–present
Associate, HAIR Lab	Sep. 2023–Sep. 2025
Student Representative, Department of Innovation	Mar.–Dec. 2024
Faculty Assistant, Department of Innovation	Mar.–Aug. 2024
President, DATUM — Yonsei UIC Data Science Academia	Sep. 2021–Aug. 2022

SELECTED AWARDS

Grand Prize, RISE Tourism Development Hackathon	2025
Full–Tuition Scholarship, Integrated B.S.–M.S. Program	4 semesters
Excellence Award, 10th Chung Ju–yung Startup Competition	2021
Academic Excellence Scholarship, Yonsei University	2020

METHODS & TOOLS

Systems. Retrieval–augmented generation, graph–based retrieval, multi–agent workflows.

Evaluation. Checkpoint selection, token likelihood, controlled ablations, hierarchical bootstrapping, sensitivity analysis.

Human–AI research. Controlled user studies, semi–structured interviews, qualitative coding, thematic analysis, interaction logs.

Programming. Python, R, SQL, PyTorch, Hugging Face Transformers, scikit–learn, LaTeX.
